

ICD-10-PCS A&P Module: Female and Male Reproductive System (0U-0V)

Course Description

ICD-10-PCS A&P Module Female and Male Reproductive System is designed to enhance coding professionals' knowledge in anatomy, physiology, and pathophysiology terminology for conditions related to the reproductive system. This module reviews the ICD-10-PCS categories (0U - 0V) and its ICD-10-PCS terminology.

This module concludes with a 20-question final self-assessment test to assess your practical knowledge of the skills reviewed.

Learning Objectives

- ✔ Learn the functions of female and male body parts within the reproductive body systems.
- ✔ Acquire the anatomical and physiological knowledge required for correct coding of the reproductive systems procedures.
- ✔ Understand the condition, why it is being treated and what the procedure will achieve.
- ✔ Compare the differences between ICD - 9 and ICD - 10 – PCS codes and learn the ICD – 10 - PCS character values for the reproductive body part, root operation and approach.

This course also qualifies for **2 hours** towards AAPC and AHIMA's new ICD-10 CE
